

MeacoFan 360 Personal Air Circulator

The much smaller brother of the multi-award winning MeacoFan

Small enough for personal use in the office, living room and bedroom.

Matt finish

DC power = lower energy
+ lower noise level

Left/right 80° rotation plus
up/down adjustment.

Sensor touch controls, night
light on/off option

This is a beautifully made fan that utilises the same DC technology as our hugely successful and multi-award winning MeacoFan 1056, to reduce energy and noise levels without compromising on air flow. Small enough to sit on an office desk, coffee table or a bedside table for personal cooling.

Product size and weight – 213 x 208 x 298mm (LWH), 1.4Kgs.
